Re: Supplement

Dear Mr. Snell:

I have reviewed 4 re-cut slides from Ms. Wicker (S08-3774), stained by Dr. Welch. The slides included two Congo red and two trichrome stains from uterine tissues PE and AE, and a positive Congo red control.

The findings on Dr. Welch's stained slides do not alter my conclusions regarding Congo red staining of these tissues.

Sincerely,

A handwritten signature in black ink, appearing to be 'S. Factor', written over a horizontal line.

Stephen M. Factor, M.D.
